ABOUT VESSEL

Built in 2022 and delivered in 2023, measuring just over 20 meters in length with a 5.6-meter beam, her clever Italian design makes her feel far larger than her size suggests. From the vertical windscreen to the expansive flybridge that fully overhangs the cockpit, every detail has been engineered to maximise space and light. Built in Italy by Absolute shipyard, she features a GRP semi-displacement hull to Category B standards, delivering efficient cruising at 18-20 knots. With just one owner since new, A4A is presented extremely well. We highly recommend a viewing.

The exterior of A4A is designed for entertaining and relaxation, with multiple versatile spaces for guests to enjoy. The bow offers a sofa with an extendable dining table, a large four-person sunbed, and a retractable sun awning for shade at anchor. Her expansive flybridge is one of the largest in her class, featuring a full wet bar with fridge and grill, a generous dining area, and a helm with comfortable companion seating. Aft, the cockpit flows seamlessly into the interior via patio doors and an electric drop-down glass window that links to the galley, creating a true inside-outside social hub. Wide side decks ensure safe and easy access to all exterior spaces, making her ideal for both private cruising and charter.

Inside, A4A is flooded with natural light thanks to Absolute's signature cutaway bulwarks and oversized windows. The open-plan saloon includes a comfortable lounge and TV area, connecting directly to a spacious dining space and fully equipped galley, ensuring the interior is just as social as the exterior. A raised main helm forward features triple screens for excellent visibility and long-distance cruising.

Powered by twin Volvo IPS 1350 engines, A4A combines strong performance with effortless handling, aided by joystick docking and a bow thruster. Her technical inventory includes a Garmin glass bridge system with radar, autopilot and multifunction displays, plus full integration of navigation and vessel systems. Comfort is assured with air conditioning throughout, Humphree zero-speed fin-stabilisers, a twin generator setup and a large-capacity watermaker. Contact us now for more information about this specatular yacht!
