## Catamaran BALI 5.4

**BALI 5.4 - 2024 | 6 cabins / 6 bathrooms | 2 x Yanmar 80 HP | Spanish flag, List 6**

The Bali 5.4 is a modern cruising catamaran designed to offer space, comfort and very easy living on board. One of the strongest points of this model is its open and practical layout, with the saloon and aft cockpit connected on the same level to create a large day area that feels bright, comfortable and very social. The rigid foredeck with lounge area is another key feature of the Bali range, adding a second exterior living space that is both useful at anchor and enjoyable while sailing. The flybridge gives excellent visibility and creates yet another area to relax on board, making this model especially attractive for owners looking for generous outdoor and indoor spaces.

This particular 2024 Bali 5.4 is equipped with 2 x Yanmar inboard diesel engines of 80 HP, a configuration seen on comparable Bali 5.4 units and well suited to a yacht of this size. She is offered under the Spanish flag and List 6 registration, with a very desirable 6 cabin / 6 bathroom layout, ideal for private cruising, charter activity or mixed use. The accommodation offers very good capacity and privacy for guests, while the overall design of the boat focuses on easy circulation, natural ventilation and comfortable stays on board.

A spacious, modern and versatile sailing catamaran, the Bali 5.4 is a strong option for buyers who want a boat with real volume, practical comfort and a layout designed to enjoy life at sea with

family, friends or guests.
