

Curiosity is inherent to human nature. It can take us across borders, mountains and oceans. Explorer yachts are the true expression of that curiosity we all share and I believe catamarans provide an amazingly safe, spacious and seaworthy platform for long, inspiring journeys.

Francis Lapp,
President and Founder of the Sunreef Yachts shipyard

Explorer catamarans by Sunreef Yachts are versatile luxury crafts dedicated to discovering new cruising grounds. Their modern twin-hull design provides a unique combination of seaworthiness, redundancy and extreme range for extended voyages. With shallow draft, unmatched storage capacity and vast entertainment areas, they are the next generation of explorer superyachts. The new 50M Sunreef Explorer is the ultimate expedition craft for all those who dream of expanding their yachting horizons.

Dive compressors, sea bobs, e-bikes, e-foils, sailing dinghies and tenders - the 50M Sunreef Explorer holds enough storage capacity to welcome an impressive fleet of water toys and sports gear on board. Every cruise is an opportunity to explore uninhabited lands and interact with nature on a whole new level. Every detail of the yacht's design and equipment can be tailored to satisfy the needs of passionate divers, adrenaline-seekers or fishing enthusiasts.

With a private spa, a gym and outdoor cinema with a bar, the 50M Sunreef Explorer provides superyacht comfort in the most remote cruising grounds. Designed and built to offer unrivaled luxury, the explorer catamaran opens unlimited possibilities for alfresco lounging with an immense aft deck using the entire 14,3 m beam. Her interiors welcome up to twelve guests in light-filled dining and relaxation areas and custom-designed staterooms.

Catamarans are the safest platform for extended navigation, as all crucial systems on board are doubled. With two engines, two fuel tanks, multiple generators and two water tanks, an explorer catamaran guarantees redundancy and reliability in all critical areas. The design of the 50M Sunreef Explorer also includes impressive storage capacities for provisioning as well as a smart waste management system. The yacht's cranes, garages, windlasses, aft platform and thrusters are all perfectly engineered for delivering the ultimate performance, even in the most difficult conditions.

MAIN PARTICULARS

50M Sunreef Explorer

Length over all	49.99 _m
